

## ROOFINGS POLYPIPES

### Quality Policy

Roofings Polypipes considers quality as a responsibility of every employee working under its premises and expects all workers to always act by maintaining safe working conditions and report all nonconformities promptly.

**MISSION STATEMENT:** Producing Sustainable Building Materials that enrich communities in Africa.

**VISION:** To be an Accelerator for Sustainable Africa.

**Our Core Values:** 1. Integrity, 2. Accountability, 3. Respect, 4. sustainability, 5. Professionalism

#### Quality Objectives/aims

- To create a dedicated and self-motivated work force that supports our values of quality and integrity.
- To maintain a management system that meets the requirements of and facilitates the production of quality products and continually improve performance in relation to all aspects of quality.
- Providing employees with all relevant information and appropriate training in relation to quality.
- To identify and address the product requirements of our customers as well as enhance shareholders' returns through maximizing efficiency and reliability.
- To achieve sustainable development through innovation while striking a balance between growth and profitability as well as striving to be a risk resilient organization in a bid to protect and conserve the environment.
- To explore new business opportunities and achieve a global presence

**Strategies:** We emphasize a commitment of everyone in the organization to satisfy the applicable requirements and improve the quality management system by providing more value through innovation and solutions that stand a test of time

- **Corporate Objectives:** Establish measurable quality objectives and targets that meet the requirements of standard ISO 9001:2015 and the customers.
- **Actions to Address Risks and Opportunities:** Identify and review all enterprise risks including risks related to Covid-19 pandemic and opportunities, implement, and monitor the effectiveness of mitigation measures taken to prevent the reoccurrence of such risks.
- **Legal and other regulatory Compliance:** Complying with the applicable laws and other regulatory compliance requirements for the industry.
- **Measurement, Reporting and communication:** Communicate the quality policy, quality objectives and targets to all employees at relevant levels within the organization and other interested parties. Periodically report on the overall performance through weekly plant meetings, internal audits and management review meetings.
- Review and continually improve the suitability of the quality management system developed on a process approach to ensure that we meet the requirements for manufactured plastic products.

We continuously strengthen every one's commitment to satisfying customer needs/requirements in the most cost effective and efficient way by ensuring that management behavior, corporate image, communication, and recognition systems reflect the norms and values that support quality, integrity and continual improvement.
